About Us

Started in 1875 by our family lineage of Boat Building, A.H. Wadia Boat Builders is India's oldest family-run boatyard, renowned for constructing high-quality vessels that meet exceptional marine and IACS standards. With over a century of inherited expertise, we blend tradition with innovation, delivering boats in wood, fiber composites, steel, and aluminum. Our passion for craftsmanship, state-of-the-art technology, and commitment to excellence bring every maritime dream to life.

The Boat Yard

Our 7,000 Sq.m facility includes a launching/docking area, four sheds, an air-conditioned FRP moulding shop, mechanical and carpentry workshops, storage warehouses, and administrative offices. ISO 9001:2015 certified, we take pride in building India's first indigenous 45-meter teakwood yacht, MY Ashena, and pioneering harbor crafts such as pilot, patrol, passenger, and work boats.

Equipped with CNC plate cutting machines, hydraulic presses, pipe bending machines, and premium raw materials, our dedicated FRP facility ensures precision and timely delivery. Strategically located on India's west coast, our yard enables seamless delivery by sea or road, with proximity to Hazira and JNPT ports.

We have supplied mooring, pilot, hydrographic survey, and patrolling boats to major and minor ports across India. Registered with the Fisheries Department of India, we also deliver paddle and motorized fishing boats for tribal and local fishing communities.

Our Services

We undertake Turnkey Vessel Design and Building projects and Our success is driven by a skilled team of technical and managerial experts, continuously trained in best practices.

We foster sustainable growth through strong partnerships with suppliers and stakeholders, ensuring long-term collaboration and excellence.
